**Subject:** [DEC\_WaterQualityStandard] Public Notice of Human Health Criteria Technical Workgroup Meeting  
**Attachments:** HHC Tech Workgroup\_public notice\_080315\_Final.pdf

The Alaska Department of Environmental Conservation (DEC) Division of Water will be convening a human health criteria technical workgroup. The purpose of the technical workgroup is to review key technical issues identified by DEC related to the U.S. Environmental Protection Agency National Recommended Water Quality Criteria for the Protection of Human Health (2015). The workgroup is advisory in nature and will discuss the technical information that may affect future regulation revisions in Title 18, chapter 70 of the Alaska Administrative Code (18 AAC 70) for water quality standards. Workgroup membership is by invitation, but all meetings will be open to the public and meetings will include opportunity for public participation.

Enclosed is a copy of the Public Notice that was posted on August 6, 2015 on the State of Alaska Online Public Notices website and Alaska Dispatch News.

Thank you,

Brock Tabor
